The Kensington Expressway should be capped. The neighborhood must be rewritten for the sake of a united & complete city.

Completion of this essential project would ~~be~~ ~~be~~ once again bring F.L. Dinkels' vision to life - another architectural gem for Bf10 to showcase.

We should not go back, you cannot bring back the homes that was destroyed. You cannot bring back the past. Public transportation needs help, a train that goes North South misses so many communities. Housing not for low income but for the families that to much for income and not enough for for Market Value rentals. Spend the money for the future not pass.

We would like to see some historical displays of Black American icons that is specific to Black American culture & history. Show casing and giving homage to our district history & lineage.  
To name a few icons:

- 1.) Elijah Muhammed
- 2.) Callie house
- 3.) Fannie Lou Hamer
- 4.) Frederick Makinley Jones
- 5.) T.A. Carrington
- 6.) George Washington Carver
- 7.) Paul R. Williams
- 8.) Mark Dean
- 9.) Mae C. Jemison
- 10.) Stephanie Wilson
- 11.) Michael P. Anderson

Comment: Just wondering what the status of this proposed project is. Seems like a while since I've heard anything new. Want to be sure it's moving forward, this neighborhood has seen its fair share of empty promises.. Where is this project at currently and when can we expect to see anything happening? Thank you.

For me personally my house was hit several times. Due to people speeding. the "kia boys" almost ran me over while I was doing yard work. I am 30 years old that likes to sit on the front porch with my 1 year old daughter. I don't wanna be worried about cars hitting me, my daughter, my house, or any body at that. I've called to get planters, or some type of barrier like the 198 expressway, or on some streets on delaware, linden, or those dividers on Colvin. This project is bigger then just me and my family. This is about my community being heard and connecting a huge part of the city that everybody in the city of buffalo uses on ~~the~~ a daily basis.

I have stayed on Humboldt for 15 plus years. This has been the biggest project I have witnessed. Even though I am excited for the project, I have received little to no information about whats actually going on, and how it will affect not just me, but the actual people living on Humboldt Pkwy. I was at the last meeting held at the Science Museum; Even though they had alot of info about the project it seemed to lack knowledge about how the plan was to be executed. For Example, parking and the speed limit on the street. How they plan to actually control the explosions ETC. We have alot of elders that live on this street, and we need theyre input as well. So I wanta make sure this community is on the same page and knows whats going on. The people of Humboldt Pkwy deserve that at bare minimum.

Comment: I work as a delivery driver downtown and have to use the 33 often, and understand that it has to go. Buffalo has no traffic problems, Buffalo does have density problems. FILL in the 33 at least till delavan, then use the remaining funds to finally complete the NFTA's original plan of an airport line, giving a needed economic boost to the east side and allowing workers to more easily access opportunities across the city. FILL NO CAP--FILL IN the 33. Please divert this massive sum of money to transportation and infrastructure projects on the east side. There are no longer any open libraries--what are we doing building the most expensive stretch of highway in the us when we have one of the highest poverty rates in the us?

I remember when the parkways (Humbolt & Squag) were built, and I also remember how it was before. I lived 2 blocks north of where the pedestrian bridge is now. As kids, we rode our bikes to the park.

My comment is that this project addresses a wrong conceived and executed by power, and the beauty cluttered created was cut. I am so grateful that now leaders and citizens are ~~seto~~ healing some of what split Buffalo apart.

**Subject:** completely restore the Humboldt Pkwy

Dear NYS DOT:

Olmsted's design needs to be completely restored. Full stop. Capping a small piece is not enough after what was done to a masterpiece. It is said there isn't the money. Actually there isn't the will. Those who do not know the history of Olmsted's design, those who don't remember the parkway system, those who did not grow up around it, have no appreciation and understanding. Well I do. If those in charge understood the full meaning of Olmsted's design, these puny plans would not be offered. I am soon to be 67 years old, grew up on Northampton Street 1956-1966 and then Woodward Avenue and Florence 1966-1974 (education and career in other states 1974-1990), I know what was destroyed and how Buffalo has been dis-invested to support white flight to Amherst, Cheektowaga, and Orchard Park. Well turnabout is fair play. Now is the time to completely restore the 33 to Olmsted's vision. Sell bonds, get private partnerships, do more than what you have put forth as the plan and do the right thing: completely restore. The restoration would be a workforce plan for white and blue collar workers.

No small plans please!

Sincerely yours,

lp

Current plan is not good enough. Would like to see Humboldt Pkwy completely restored.

No small plans!

Money was no object when it came to destroying  
the Olmsted masterpiece, demolishing perfectly fine and  
beautifully crafted homes, and ~~destroying~~ dividing the City  
into East Side poor - West Side resourced. Now that  
there is talk of righting a past wrong, suddenly there is  
little money, little imagination, and no thought of replacing  
completely Olmsted's vision. No small plans please. No  
bandaid. Put the Humboldt Pky back in full. NYS has  
a GDP as large as major Western Nations. We have the  
money. Restore Olmsted's vision. NO SMALL PLANS

The residents <sup>+ homeowners</sup> nearest to the area in question should have the major say in what happens. They were the ones hurt most in the 1st place, & should not only be at the table, have the most important voices. Nothing about them without them.

This project is reminiscent of Boston's Big Dig. 23 years later, it is a huge success, and has created green areas, public spaces and ease getting place to place on bike and foot. Do this!

was. I wish the funds  
would have been for  
upgrading housing

In 20 years this area  
will not be "black" but  
white for those trying to  
take over the city

So disappointed I am 75  
years old and feel betrayed.
