

# Construction Commitments

## Airborne dust

- NYSDOT requires the use of water (sprayers) to control dust

## Blasting

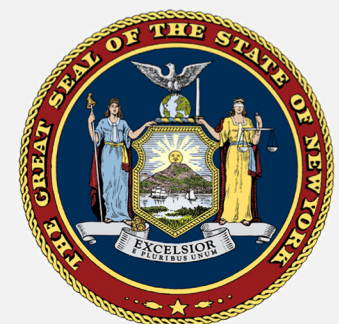

- Blasting schedule will be published and available at outreach office
- Blasting procedures will have pre-blast audio alerts
- Local police and emergency services will be aware of blasting schedule
- Noise and vibration monitoring equipment will be used near blast site
- Pre and post construction home inspections will be conducted and any adverse effects will be addressed
- The outreach center will continue to be open throughout construction

## Traffic & Parking Impacts

- To be minimized to the extent practical by NYSDOT approved work zone plans

## Night work

- Minimize construction noise to the extent practical
- Noise abatement measures will be identified in the Environmental Assessment
- No nighttime blasting or mechanical rock excavation
